# Diabetes Care at the Top End

*an Educational Symposium*

**Friday 19 & Saturday 20 October, 2012**

*Holiday Inn Esplanade, Darwin*

***This educational symposium is designed for Top End health professionals who are working with the impact of diabetes and its complications. It will review the evidence for management and preventive health programs, with a focus on remote communities.***

Local and National experts will discuss the latest evidence and relevance to the NT experience. The Symposium is aimed at all health professionals, including GPs, clinical specialists, hospital staff, remote health and allied health staff. Aboriginal Health Practitioners and AHWs in particular, are encouraged to attend this educational event.

***Registration is free but essential.***

Visit [www.bakeridi.edu.au](http://www.bakeridi.edu.au) for further information and registration details, or contact the symposium coordinator on **1300 728 900**.

## **Key topics include:**

- Epidemiology – global, national and local diabetes perspectives
- Diabetes – early diagnosis and early life events
- Management of diabetes and its complications
- Education and self-management
- Diabetes in children and adolescents
- Preventing diabetes – the opportunities and realities
