

Indigenous Dental Health Resource

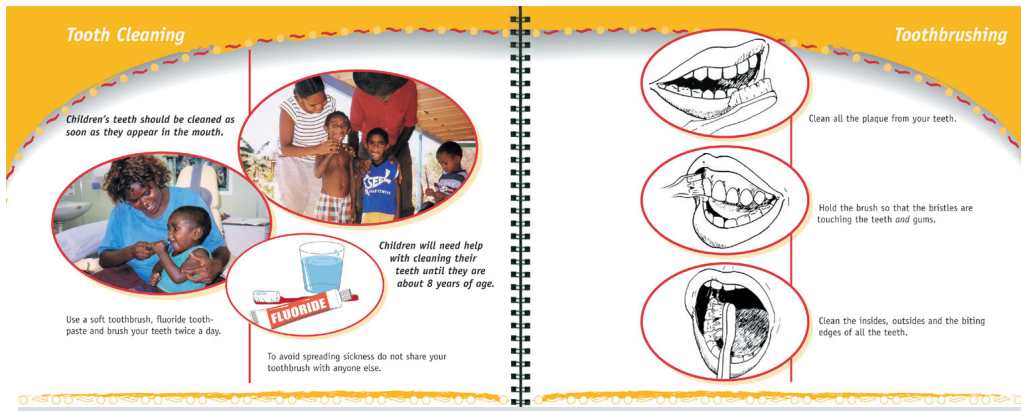

Government of Western Australia
Department of Health
Dental Health Services

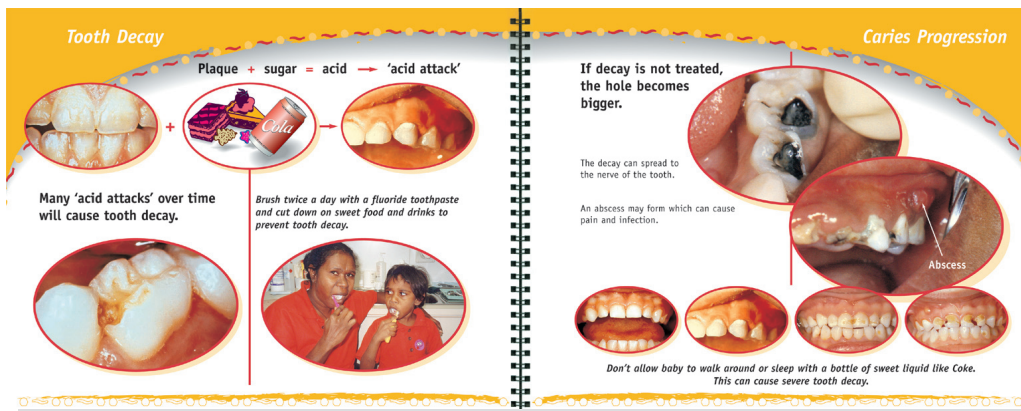

A new educational resource, **'The Tooth Book'**, a flip chart for people wanting to know about caring for their teeth, has been produced by WA Dental Health Services', Dental Health Education Unit (DHEU). This resource is in response to the need for culturally appropriate material for indigenous people.

The Tooth Book is a colourful resource using photographs, graphics and simple text to depict dental messages in an easy to understand format.

The Tooth Book can be used as a chairside instructor, or for small group presentations. This is also an excellent resource for use by community groups such as Aboriginal Health Workers, community and school nurses and school teachers. **The Tooth Book** is available for purchase from Dental Health Services at a cost of **\$70.00** which includes postage, handling and GST.

With easily read text and colourful, clear pictures, this 16 page book is a high quality production with the pages plastic coated on both sides and finished with a durable wire binding system.

Please do not hesitate to contact the DHEU staff with your queries or comments with regards to this resource on - Tel: (08) 9313 0555 Fax: (08) 9313 0630 email: dheu@dental.health.wa.gov.au
